## REPUBLICANS OF ELKO HEAR EX-DEMOCRAT

F. S. Godney Tells Reasons for His Defection From Ranks of Bourbon Party

(Special to The Bonanza)  
ELKO, Nev., Oct. 16.—The meeting Sunday evening at Leonard hall of the Harding and Coolidge club was largely attended and a very enjoyable program was carried out. The address of F. S. Godney, formerly a Republican leader of the eastern part of the state, was a most interesting one and he held the close attention of the audience for more than an hour.

"It is said that I have deserted the Democratic party," said Mr. Godney in opening his address. "That is not exactly a truth; rather the Democratic party has deserted me." While the spectators laughed, "During the last winter that Senator Nease was in the senate," said Mr. Godney, "I had the pleasure of spending several months in the national capital and spent considerable time in the gallery of the senate. It was at that time that I began to see that the Democrats, controlled by the southern senators, did not have the business ability to handle properly the business of the nation. It was very plain that when the Democrats were put in power by the votes from the north, the national congress was dominated and controlled by the southern politicians who knew nothing, and cared less, for the needs of the northern states, which comprised the great majority of the United States. Legislation was passed favoring the southern states, and the northern states, which produce and consume the bulk of the products of the whole country, were ignored, and laws were pushed through which today are having their effect, and are the cause of the present hard times. If at the coming election the voters elect a Democratic president and sufficient senators to control the senate, we will continue to be dominated by the southern politicians, and I believe that the people should be brought to a realization of this great danger, and if the north and the west want to bring back good times they must vote for and elect a Republican president and gain control of the congress, for the reason that the Democratic party has shown that it is incompetent to properly handle the affairs of the nation. We must have a protective tariff, a tariff that will protect the products of our western states, our wool and livestock markets, our metal markets."

The speaker was given close attention and was interrupted time and again by outbursts of applause. At the close of the meeting he was warmly congratulated on his address and his courage to speak his convictions, and, as one man put it, "Frank you have always been a Republican, but under the wrong flag."

It was decided by the members to give ex-Governor Oddie, the Republican nominee for the United States senate, and Samuel Arentz, the Republican candidate for congress, a mighty welcome on their visit to Elko on October 22, and in a few minutes a fund of nearly \$100 was raised to secure the opera house and pay other necessary expenses. A committee was appointed to secure more funds, and to make the meeting on October 22 the biggest Republican rally ever held in Elko county.

## Candidates Welcomed By Clark County

(Special to The Bonanza)  
GOODSPRINGS, Nev., Oct. 16.—This little town in the southern corner of Nevada is the birthplace of the idea which made Samuel Shaw Arentz the Republican candidate for representative in congress. During a social talk a couple of years ago, Henry F. Robbins, proprietor of the Sultan lead-zinc mine, near here, suggested the idea. Florence S. Doherty, publisher of the Goodsprings Gazette, and her father, publisher of the Las Vegas Age, were present. Mrs. Doherty published a short item in her newspaper commending the idea, and Mr. Squires followed suit in the Age.

Two months afterward the Silver State of Winnemucca published the first authentic account of the works and character of Mr. Arentz, advocating his candidacy. It was not until the early part of this year, however, that he decided to try for the nomination. How he succeeded in securing the largest vote of any of the several candidates in the different parties—candidates for the national offices, that is—is now history.
